To Whom It May Concern;

Please be advised I am writing on behalf of Andreia Lima. As a C-Level executive for ImageCare Radiology, overseeing 20+ outpatient centers and as a single parent with sole custody of two children; she struggles with varying severity levels of anxiety, panic attacks and depression reflective of stress levels endured by her professional and personal obligations.

Given the course load she is undertaking at this moment with hopes of pursuing a different career prospect in the near future, and considering her professional and personal extraneous levels of commitment; I am recommending that Ms. Lima has access to two (2) additional tutoring sessions in order to give Ms. Lima the best feasible prospect of a successful course completion conducive to meeting class requirements. Please advise me should anything further be necessary regarding this request to accommodate additional tutoring access for Ms. Andreia Lima given her circumstances.

Sincerely,

Clay Hinrichs, MD  
President
